Obniżenie ceny ze względu po podniszczzone opakowanie zewnętrzne.

Ranger RCI2970N3

FEATURES, FUNCTIONS AND SPECIFICATIONS:

Introducing the all new Ranger RCI2970N3 300 watt 10 and 12 meter radio with built-in blue LED frequency display, green backlit push button controls, and features the standard 2970 features such as SSB, CW, 6-pin channel changing microphone, and awesome voice clarity.

Please be aware - this radio will slightly drift frequency as it heats up, during SSB operation you may notice the radio has changed it's operating frequency from it's standard cold state -- this is outside of our control. Also, small scratches on the faceplate and case may appear to have been "sharpied" with a marker -- THIS IS DONE BY RANGER
